

WALL BRACKETS

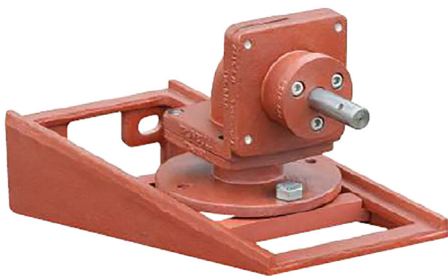

DUCTILE IRON – MODEL TMWBDI

STAINLESS STEEL - MODEL TMWBSS

DESCRIPTION:

Wall Brackets are used in conjunction with several of our other products such as Miter Gears, Valve Position Indicators, Pedestals, Floorstands, and others. Cast from either ductile iron or 316 stainless steel. All ductile iron castings are coated with Tnemec N140-1211 epoxy (complies with NSF 61). Sold as kits with parts and hardware included to accommodate several other products. Custom fabricated wall brackets also available upon request.

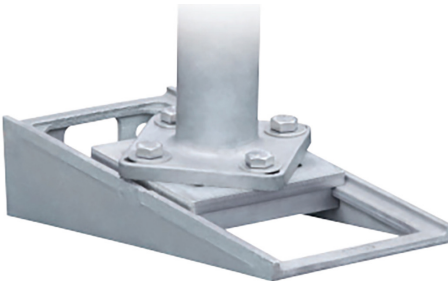

MITER GEAR APPLICATIONS:

Kit includes Wall Bracket, Miter Gear MG1A, (2) clamps and hardware. Available in either ductile iron or 316 stainless steel. Adjustment range, stem to wall 4-1/2" to 17-1/2". Concrete anchors not included. Custom fabricated wall brackets also available upon request.

VALVE POSITION INDICATOR APPLICATIONS:

Kit includes Wall Bracket, Position Indicator Housing, (2) clamps and hardware. Position Indicator sold separately. Available in either ductile iron or 316 stainless steel. Adjustment range, stem to wall 3-1/2" to 18". Concrete anchors not included.

FLOORSTAND / PEDESTAL APPLICATIONS:

Kit includes Wall Bracket, Mounting Plate, (2) clamps and hardware. Floorstands and Pedestals sold separately. Available in either ductile iron or 316 stainless steel. Adjustment range, stem to wall 4-7/8" to 17-1/8". Concrete anchors not included.
